

You're invited to **D4 Conference 2025** – Stronger Together

On 2 October 2025, we will come together to explore a theme that not only underpins your daily work, but also shapes your organisation from within: Compliance.

At its core, compliance is about ensuring that things are done correctly – in line with laws, standards, and internal guidelines. But compliance is more than checklists and controls.

It's about people – and the environment we create to help them carry out their work with confidence, responsibility, and a shared sense of purpose. That's why the conference begins with a focus on psychological safety. When we feel safe, we're more likely to ask questions, report mistakes, share knowledge, and engage with our organisation's quality objectives.

This is exactly the kind of behaviour that brings compliance to life – making it more than just words on paper.

Mads Herschend – speaker, educator, and expert in workplace wellbeing – will guide us in reflecting on the human side of compliance.

With that perspective in mind, we will move into a programme designed to give you plenty of opportunities to exchange experiences, gain inspiration, and take part in practical exercises with other D4InfoNet users – all aimed at strengthening your compliance efforts.

What can you look forward to?

To mark our 25th anniversary, we invite you to a special day at the historic Holckenhavn Castle.

Look forward to a programme with inspirational presentations, networking, and hands-on sessions. We will focus on the challenges you face in your daily work – and show how the tools in the D4InfoNet platform can help you work more effectively and with greater confidence.

This year you can enjoy:

- A new and exciting programme format
- Professional insights in historic surroundings
- The chance to meet D4's consultants and specialists
- Opportunities to exchange experiences with other dedicated platform users
- Gastronomic catering throughout the day

Tools in focus

We will take a closer look at four key areas in D4InfoNet:

- **Document Management:** Gain clarity with D4Handbooks
- **Competence Management:** Put knowledge into action with D4Employees (also known as D4HR)
- **Audits & Supplier Evaluation:** Drive improvement through structure with D4Audit
- **Effective Dashboards:** Make compliance accessible with D4Dashboards

Each session will be guided by inspiration, peer dialogue, and thought-provoking questions to help you share experiences and learn from one another.

Stronger Together is not just our theme – it's our approach.
